BALBY INTERNATIONAL

LIST

OF THE TECHNICAL DOCUMENTATION

REALISED

FROM YEAR 2000 TO 2009

Protect the nature
because the nature protects us!

BALBY INTERNATIONAL
consulting, engineering and construction company
Address: Kraljice Marije 1-3 11 120 Beograd

REALISED IN 2000

319	**TEMERIN**	**Conceptual design** of the extended water pipeline network of **Temerin, Bački Jarak** and **Sirig** settlements
320	**LJUBOVIJA**	**VOLUME 3** **Part 2:** Detail design of the new waste disposal Kuline in **Ljubovija**
321	**LJUBOVIJA**	**VOLUME 3:** **Part 3:** Detail design of the electric installations of the new waste disposal Kuline in **Ljubovija**
322	**ŠTRPCE**	**Detail design** of the regulation of the **Miljoštica** river
323	**LJUBOVIJA**	**Detail design** of the approach road for the new waste disposal **Kuline** in **Ljubovija**
324	**LJIG**	**Detail design** of the water tank, constructions, volume 2 x 200 m^3 in **Ljig**
325	**LJIG**	**Detail design** of the equipment of the water well bsk-2 / 99 in **Ljig**, construction and hydro-mechanic part
326	**LJIG**	**Detail design** of the filtration device, chlorine station, collection tank and connecting pipeline ∅200 mm (architect-constructive, technological and hydro-mechanical part) in **Ljig**
327	**BEOGRAD**	**Detail design** of the apartment in Kosovska street No. 35 in **Belgrade**
328	**LJUBOVIJA**	**Detail** architect - constructive and electric design for the extension of the building in Omladinska 1 street - **Ljubovija**
329	**PANČEVO**	**Previous analysis of the influence on the environment** of the city waste disposal of **Pančevo and Dolovo**
330	**LJIG**	**Design** of electrical installations of the water well, water tank and filtration device with pumping station in **Ljig**
331	**JAKOVO**	**Analysis of the possible influence on the Belgrade ground water source** of the gasoline tanks of the NIS - Jugopetrol, warehouse **Jakovo - Bečmen** in Jakovo
332	**ŠTRPCE**	**Feasibility study for constructing the** mini hydro power plant on the territory of the **Štrpce** municipality
333	**SURDULICA**	**Previous analysis of the influence on the environment** of the new industrial waste disposal of a.d. **Mačkatica** , Surdulica
334	**LJIG**	**Technical control of the** technical documentation
335	**SURDULICA**	**Detail design** of the remediation of the existing industrial waste disposal in. a.d. **Mačkatica - Surdulica**
336	**SURDULICA**	**Detail design** of the new industrial waste disposal in a.d. **Mačkatica - Surdulica**
337	**TEMERIN**	**VOLUME 1:** Study of the sewerage effluent of settlements in Temerin municipality, water quantity and quality
338	**TEMERIN**	**VOLUME 2:** General design of the sewerage of settlements in Temerin municipality (Temerin, Bački Jarak, Sirig) effluent, water quantity and quality
339	**TEMERIN**	**VOLUME 3: Program of geodesic works** for the design of the sewerage system in the Temerin municipality
340	**TEMERIN**	**Part of the detail hydro-constructive and architect - constructive design** of the waste water treatment plant in **Temerin** - zero phase -
341	**TEMERIN**	**Detail design** of a part of the sewerage network in **Temerin**
342	**TEMERIN**	**Detail design** of the sewerage pumping station "CS-2" in **Temerin**
343	**LJUBOVIJA**	**Detail analysis** of the influence on the environment of the new waste disposal "Kuline" in **Ljubovija**
344	**ŠTITKOVO**	**Design** of the installations of cold and hot sanitary water, and the industrial and communal sewerage of the dairy in the **Štitkovo** village
345	**ŠTITKOVO**	**Design** of the internal installations for the dairy in the **Štitkovo** village
346	**ŠTITKOVO**	**Architect - constructive design** of the dairy objects
347	**graduate paper**	Additional water supply of the **Ljig** settlement
348	**NOVA PAZOVA**	**Annex of the design** of the sewerage system of the **Nova Pazova** settlement **VOLUME 2:** Detail design, Krajiška street and Put

REALISED IN 2001

349	**BOGATIĆ**	**Detail design** for reconstruction for water piping in Janko Veselinović Street in Bogatić
350	**BLOCK - 60 NOVI BEOGRAD**	**Contract documents** about possible influence in water source of Belgrade's water piping and necessary concern in protection for structure NIS- Jugopetrol-a, petrol station "Tošin Bunar - block 60" New Belgrade
351	**BLOK - 65 NOVI BEOGRAD**	**Contract documents** about possible influence in water source of Belgrade's water piping and necessary concern in protection for structure NIS- Jugopetrol-a, petrol station "Tošin Bunar - block 65" New Belgrade
352	**PREŠEVO**	Urgent solution for water supplying for settlement Oraovica in community Preševo
353	**PREŠEVO**	Urgent solution for water supplying for settlement Oraovica in community Preševo Design of wells for water supplying for settlement Oraovica locality of new water source "Livade"
354	**PREŠEVO**	**VOLUME 1:** Preševo - Technical documents of urgent solution for water supplying for **Preševo**

355	**PREŠEVO**	**VOLUME 1:** Locality Čukarka Technical documents of urgent solution for water supplying for **Preševo**
356	**ZUBIN POTOK**	Technical documents of urgent solution for water supplying for settlement **Zubin Potok**
357	**ZUBIN POTOK**	Technical documents of urgent solution for water supplying for settlement **Čabra** in community **Zubin Potok**
358	**ZUBIN POTOK**	Analysis of intense rains for settlements **Zvečan** and **Zubin Potok** region
359	**PREŠEVO**	Report from terrain round of certain settlements in community **Preševo** Review of existent technical documents and making mathematics model from water piping and sewerage fields for settlements: **Bukurevac, Rajince, Čukarka, Miratovac, Trnava, Oraovica and Aliderce**
360	**JEŠA**	**Detail design** of sewerage system for settlement **Ješa**
361	**ZVEČAN**	**Detail design** of reconstruction for sewerage route no. 1 in settlement **Zvečan**
362	**ZUBIN POTOK**	**Technical solution** for sewerage of settlement **Zubin Potok** and suburbs Ješa and Pridvorica, primary and second sewerage and structures on net and define attributes of future waste water treatment plant in locality of settlement **Ugljare**
363	**ZVEČAN**	**Technical solution** of water supplying improvement of settlement **Zvečan**
364a	**ZVEČAN**	**Technical review of detail design** of waste sewerage of settlement **Čukarka** of community **Preševo**
364b	**ZVEČAN**	**Renewed construction and technical review** of water supplying for settlement **Trnava**, community **Preševo**
364c	**ZVEČAN**	**Technical review of detail design** of waste sewerage of settlement **Miratovac** of community **Preševo**
364d	**ZVEČAN**	**Technical review of detail design** of waste sewerage of settlement **Ašane** of community **Preševo**
364e	**ZVEČAN**	**Technical review of detail design** of waste sewerage of settlement **Rajince** of community **Preševo**
364f	**ZVEČAN**	**Technical review of detail design** of waste sewerage of settlement **Bukurevac** of community **Preševo**
365	**ZVEČAN**	**Detail design** of reconstruction for sewerage route no. 2 and no. 3 in settlement **Zvečan**
366	**GRAČANICA**	**Detail design** of reconstruction for parts of sewerage no. 2 in settlement **Gračanica**
367	**KOVIN**	**Final report** of technical review about inspection of technical documents for detail design of sewerage reconstruction C.S. and water supply thrust in **Kovin**
368	**ZUBIN POTOK**	Review for flow measuring on ground water sources for settlement **Zubin Potok**
369	**ZVEČAN**	**Detail design** of reconstruction for sewerage route no. 4 in settlement **Zvečan**
370a	**PREŠEVO**	**Tender** - making the first phase of sewerage for settlement **Rajince**, community **Preševo**
370b	**PREŠEVO**	**Tender** - making the first phase of sewerage for settlement **Miratovac**, community **Preševo**
370c	**PREŠEVO**	**Tender** - making the first phase of sewerage for settlement **Čukarka**, community **Preševo**
371	**ZVEČAN**	Technical solution for sewerage upgrade for settlement **Zvečan** Reconstruction and outhouse of sewerage and structures on sewerage and define attributes for waste water treatment plant in **Zvečan**
372	**PREŠEVO**	**Tender** - Tender for making sewerage in settlement **Čukarka**, community **Preševo**
373	**PREŠEVO**	**Renewed construction** of technical solution for urgent water supply of settlement **Oraovica**, community **Preševo**, locality of new water source "Reka"
374	**MASLOŠEVO**	**Technical solution** for irrigation system in settlement **Masloševo**
375	**NOVA PAZOVA**	**Archives exemplar** of hydraulic forecast of sewerage in **Nova Pazova**
376	**MIRATOVAC**	**Renewed** detail design for sewerage system in **Miratovac**
377	**OPŠTINA PREŠEVO**	**Technical and tender** documents water supplying solution for settlement **Ukmemet**, community **Preševo**
378	**OPŠTINA PREŠEVO**	**Technical and tender** documents water supplying solution for settlement **Derviš** and **Zegbaš**, community **Preševo**
379	**MIRATOVAC**	**Renewed** technical solution of water supplying for settlement **Miratovac**
380	**PREŠEVO**	**Added solution** of water supplying for **Preševo**
381	**PREŠEVO**	**Technical and tender** documents water supplying solution for settlement **Ljafet**, community **Preševo**
382	**PREŠEVO**	**Technical and tender** documents water supplying solution for settlement **Muhovac**, community **Preševo**
383	**PREŠEVO**	**Added solution** of water supplying for **Preševo**. Detail design for reservoir V=500 m^3 , on location **"Toplik"** in **Preševo**

384	**PREŠEVO**	**Technical and tender** documents for activating well BF-4, variant 1 Equipment for well BF-4, overtaking of water and transport to new resource **"Livade-Rasadnik"**
385	**PREŠEVO**	**Technical and tender** documents for activating well BF-4, variant 2 Equipment for well BF-4, overtaking of water and transport to reservoir Čukarka with network of water supplying **Preševo-Čukarka**
386	**KULINA**	**Technical solution** as adventitious solution of water supplying for centre for handicap people in settlement **Kulina**
387	**ALIĐERCE**	**Technical documentation** for water supplying of settlement **Aliđerce**
388	**MIRATOVAC**	**Technical review** for detail design for water supplying of settlement **Miratovac**, community **Preševo**, Unikosprojekt Prišina
389	**KULINA**	**Technical control** for technical documents of "**Technical solution** as adventitious solution of water supplying for centre for handicap people in settlement **Kulina" - technical review**
390	**ZVEČAN**	**Technical solution** of improvement water supplying settlement group of **Kosovska Mitrovica** and community **Zvečan**
391	**PREŠEVO**	**Modified technical and tender** documents for water supplying solution of settlement **Derviš and Zegbaš**
392	**URSULE**	**Technical documents** of water supplying settlement Ursule
393	**KULINA**	**Technical solution** as adventitious solution for water supplying of handicap people centre in **Kulina**
394	**SUVI DO**	**Technical solution** of improvement water supplying settlement group of **Kosovska Mitrovica** in community **Zvečan**
395	**ŽUJINCE**	**Revitalisation** of source **Žujince**, renewing of existing works of pumping station, wells and making two new wells
396	**ALIĐERCE**	**Final solution** of technical documentation for water supplying of settlement **Aliđerce**
397	**RANATOVCE**	**Technical documentation** for water supplying of settlement **Ranatovce**
398	**KURBALIJA**	**Technical documentation** for water supplying of settlement **Kurbalija,** community **Preševo**
399	**GORNJA ŠUŠAJA**	**Technical documentation** for water supplying of settlement **Gornja Šušaja,** community **Preševo**
399c		**Brochure** for making detail design for sewerage and water supplying

REALISED IN 2002

400	**PREŠEVO**	**Technical review** for detail design for water supplying of settlement **Rajince, community Preševo**
401	**PREŠEVO**	**Technical review** for detail design for sewerage of settlement **Norča, community Preševo**
402	**PREŠEVO**	**Technical solution** for part of water piping near settlement **Preševo** - direction **Norča**
403	**BAČKA PALANKA**	**Detail design** for recovery and expansion existing waste disposal in **Bačka Palanka** **VOLUME 1: Situation analysis in site**
404	**BAČKA PALANKA**	**Detail design** for recovery and expansion existing waste disposal in **Bačka Palanka** **VOLUME 2: Recovery of old, existing waste disposal**
405	**BAČKA PALANKA**	**Detail design** for recovery and expansion existing waste disposal in **Bačka Palanka** **VOLUME 3: Expansion of existing waste disposal, technology - hydrotechnical part**
406	**BAČKA PALANKA**	**Detail design** for recovery and expansion existing waste disposal in **Bačka Palanka** **VOLUME 4: Construction design for waste disposal**
407	**BAČKA PALANKA**	**Detail design** for recovery and expansion existing waste disposal in **Bačka Palanka** **VOLUME 5: Electric project for waste disposal**
408	**BAČKA PALANKA**	**Detail design** for recovery and expansion existing waste disposal in **Bačka Palanka** **VOLUME 6: Resume of detail design for expansion existing old waste disposal in Bačka Palanka and TECHNICAL REVIEW**
409	**BAČKA PALANKA**	**Technical and economic measures,** tender for **storm sewerage in street Svetozar Miletić** (sewerage segment form street Cara Lazara to street Dunavska riverside)
410	**SOMBOR**	**Detail design** for collecting and drainage storm and plant water, and processing pollution water from recycling plant **in area of accumulator factory in Sombor** **VOLUME 1: Detail design** for collecting and drainage storm and plant water from recycling plant of trade-raw **in area of accumulator factory in Sombor**
411	**SOMBOR**	**Detail design** for collecting and drainage storm and plant water, and processing pollution water from recycling plant **in area of accumulator factory in Sombor** **VOLUME 2: Detail design** for refinement processing water on planed location
412	**PREŠEVO**	**Contract documents** about possibilities for use two sources near Grnalija mahala, for water supplying of settlement Asmanska mahala from group of settlements named Kurbalija, community **Preševo**

413	**SOMBOR**	**Detail design** for collecting and drainage storm and plant water, and processing pollution water from recycling plant **in area of accumulator factory in Sombor -TECHNICAL REVIEW-**
414	**PREŠEVO (DEPČE)**	**Detail design** for water supplying of settlement **Depče (mahala Ljafet)**
415	**PREŠEVO (DEPČE)**	**Detail design** for water supplying of settlement **Depče (mahala Derviš and Zagbaš)**
416	**PREŠEVO (DEPČE)**	**Detail design** for water supplying of settlement **Depče (mahala Ukmemet)**
417	**GRAČANICA**	**Detail design** for sewerage in settlement **Gračanica**
418	**RELJAN**	**Detail design** for sewerage in settlement **Reljan -TECHNICAL REVIEW-**
419	**CRNOTINCE**	**Detail design** for water supplying of settlements Crnotince, Donja Šušaja and Bukurevac, community **Preševo**
419a	**CRNOTINCE**	**Final report** about making test-borehole, testing depletion on place of future source of underground water **"**Crnotince**"**, community **Preševo**
420	**MIRATOVAC**	**Results** of terrain works on place **"**Banjak**"** as an evidence of possibilities for taking 15 l/s for water supplying of Miratovac, community **Preševo**
421	**RAJINCE**	**Detail design** for water supplying of settlement Rajince, community **Preševo**
422	**PREŠEVO**	**General design** for refine device for waste water of community Preševo and neighbourhood settlements
423	**BAČKA PALANKA**	**Production design** for water control laboratory, calibrate room and plant for maintaining waterworks in **Bačka Palanka** **Part 1: Architectural and structural project**
424	**BAČKA PALANKA**	**Production design** for water control laboratory, calibrate room and plant for maintaining waterworks in **Bačka Palanka** **Part 2: Statically forecast and reinforcement plan**
425	**LJIG**	**Detail** design for sanitary defence zone of new underground water source in **Ljig**
426	**PREŠEVO**	**Technical control** of technical documentation **- TECHNICAL REVIEW-** **Technical documentation** of sewerage for part of community Preševo, namely, of **Detail design** for sewerage of Omladinska Street and part of Selami Halači Street in **Preševo**
427	**NOVA PAZOVA**	**Suggestion solution** for administrative business work **"**Centar**"** in **Nova Pazova**
428	**LJIG**	**Detail** design for sanitary defence zone of new underground water source in **Ljig - TECHNICAL REVIEW**
429	**VALJEVO**	**Technical solution** for making wooden bridge over river Gradec by **ecological station** "Gradac" **- Valjevo**
430	**RAJINCE REVIEW**	**Final report** about making test-borehole, testing depletion on place of future source of underground water "Rajince" Water supplying of settlement Rajince
431	**ALIĐERCE**	**Final report** technical reviews on making and test pumping wells B - 1, B - 2, B - 3 i B - 4 on source of underground water **Aliđerce**
432	**ORAOVICA**	**Final report** technical reviews on execution wells and two water- catchments, source of underground water **Oraovica**
433		**CENTRE FOR THE DIALYSIS**
434	**RELJAN I GOLEMI DOL**	**Final report** about making test-borehole, testing depletion and making physical-chemistry analysis of place, potential source of underground water **Reljan i Golemi Dol**
435	**RELJAN I GOLEMI DOL**	**Detail design** for water supplying of settlements **Reljan i Golemi Dol**
436	**RESNIK**	**Detail design** business - residential objective in **Resnik**
437	**NORČA**	**Detail design** water piping and water reservoir of settlement **Norča**
438	**ŽBEVAC**	**Abstract from detail design** for water supplying of settlements **Žbevac - water reservoir**
439	**NESALCE**	**Abstract from detail design** for water supplying of settlements **Nesalce - water reservoir**
440	**BOGATIĆ**	**Bill of quantities work for section** pressure pipeline sewer since **St 6+894.12 - St 8 + 062.12 (T76 - T98)**
441	**SAMOLJICA**	**Report making** test-borehole, testing borehole test-depletion and making physical-chemistry analysis underground water, by new school in **Samoljica**
442	**BADOVINCI**	**Design by wells,** hidrographical chlorine station in restaurant **PP "Vaske" in Badovinci**
443	**CRNOTINCE DONJA ŠUŠAJA BUKUREVAC**	**Final report** about making test-borehole, testing depletion on place of future source of underground water **Crnotince,** about making - productive wells, testing depletion on location **Donja Šušaja i and Bukurevac**
444	**MIRATOVAC**	**Research location "Banjka"** in meaning verification possibility open new source of underground water for water supplying **of settlement Miratovac**

445	**ČUKARKA**	**Detail design** two investigative service wells on Čukarka for water supplying of settlement Čukarka - Investigative service wells B - 5; 130 mm and B - 6; 50 m
446	**NESALCE**	**Detail design** execution state for water supplying of settlements **Nesalce** - Water reservoir and distribution net
447a	**ŽBEVAC**	**Abstract from design** for water supplying of settlements Žbevac **Water reservoir** of 50 m^3 for water supplying of settlements Žbevac on level 500 mnm
447b	**ŽBEVAC**	**Abstract from design** for water supplying of settlements Žbevac **Water reservoir** of 150 m^3 for water supplying of settlements Žbevac on level 500 mnm
447c	**ŽBEVAC**	**Modification design**, addition for water reservoir of 50m^3 for water supplying of settlements Žbevac on level 500 mnm
448	**NESALCE**	**Design** on source of underground water "Nesalce" for water supplying of settlements Nesalce, municipality Bujanovac (Make shape)
449	**BADOVINCI**	**Addition of** architectural and structural project for residential-business complex for "Osredak" in Badovinci
450	**ŽBEVAC**	**Design** on source of underground water "Nesalce" for water supplying of settlements Nesalce, municipality Bujanovac (Make shape)
451	**ŽBEVAC**	**Detail design** execution state for water supplying of settlements **Zbevac** - Water reservoir and distribution net
451a	**ŽBEVAC**	**Detail design** execution state for water supplying of settlements **Zbevac**, water reservoir and distribution net **- TECHNICAL REVIEW-**
451b	**ŽBEVAC**	**- TENDER -** For equipment existent well in settlement Zbevac, capacity 8 l/s and construction pressure pipeline
453	**MAHALA PEČENA**	Technical solution for reconstruction water - catchacment for water supplying solution for settlement Pecena
454	**RELJAN, GOLEM DOL AND ALIDERCE**	**Detail design** two service wells B1 and B2, and two investigative service wells B3 and B4 on Reljan for water supplying 3 settlements Reljan, Golem Dol and Alidjerce, community **Presevo**
454/ 1	**RELJAN, GOLEM DOL AND ALIDERCE**	**Report** about realised two service wells B1 and B2 and two investigative service wells B3 and B4 on source "Reljan" for water supplying of three settlement Reljan, Golem Dol and Alidjerce, community **Presevo** Tender position 12, 13 and 14
454/ 2	**RELJAN, GOLEM DOL AND ALIDERCE**	**Final report supervision** about realised two service wells B1 and B2 and two investigative service wells B3 and B4 on source "Reljan" for water supplying of three settlement Reljan, Golem Dol and Alidjerce, community **Presevo**
455	**ZEMUN**	**Expertise** on the designing drain rainy water of roof which is size 300 m^2 on structures in Zemun
456	**SUVI DO**	**Technical solution** of the protection zone of sanitary for attack underground water on the location "SUVI DO" and echo- safeguard
457	**SUVI DO**	**Technical solution safe river Ibar on the part "GAZIVODE"** to underground water source "SUVI DO" on Kosovska Mitrovica
458	**RELJAN, GOLEM DOL I ALIDERCE**	**Final report supervision** about realised two service wells B1 and B2 and two investigative service wells B3 and B4 on source "Reljan" for water supplying of three settlement Reljan, Golem Dol i Alidjerce, community Presevo
459a	**BEOGRAD**	**Detail design** for the expansion of the business work 2 in the street 27th march 71 in Belgrade
459b	**BEOGRAD**	**Detail design** for the expansion of the business work 9 in the street 27th march 71 in Belgrade
459c	**BEOGRAD**	**Detail design** for the expansion of the business work 10 in the street 27th march 71 in Belgrade
459d	**BEOGRAD**	**Detail design** for the expansion of the business work 11 in the street 27th march 71 in Belgrade
460	**INTERNAL MATERIAL**	**Conceptual design** on the kindergarten
461	**NIS**	**Detail design** on the rehabilitation earth to the water environment for structures Jugopetrol - installation Nis
462	**ALIDERCE** **RELJAN**	**Final bill of quantities** for water supplying of settlements Reljan, Golem Dol and Alidjerce
463	**RELJAN**	**Detail design** by landline pumping station

REALISED 2003.

464	**RELJAN GOLEM DOL AND ALIDERCE**	**Detail design** two service wells B-1 and B-2 and two investigative service wells B-3 and B-4 on the water source "Reljan" for water supplying three settlement Reljan, Golem Dol and Alidjerce, community **Presevo**

465	**BAČKA PALANKA**	**Continual digital supervision** and control centre of source of underground water for settlement **Bačka Palanka**
466	**BAČKA PALANKA**	**Rationalization service** of deep and shallow source of underground water of settlement **Bačka Palanka**
467	**NESALCE**	**Detail design** for leading water pipe Ø110 through formation railway Beograd - Mladenovac - Niš - Preševo - national border
468	**BAČKA PALANKA**	**Renewed technical solution** of new waste area "Tamana" in **Bačka Palanka**
469	**PANČEVO JABUKA**	**Technical report for** wells situation on estate of special institution for children with special needs in settlement **Jabuka, Pancevo**
470	**ALIĐERCE, GOLEMI DOL I RELJAN**	**Detail design** for water supplying of settlements **Reljan, Golemi Dol and Aliđerce**, community **Preševo BOOK1**: Ground wter source, wells with equipment, pumping station and water pumping to the central reservoir and wter reservoir -text-
470-a	**ALIĐERCE, GOLEMI DOL I RELJAN**	**Detail design** for water supplying of settlements **Reljan, Golemi Dol and Aliđerce**, community **Preševo BOOK1**: Ground wter source, wells with equipment, pumping station and water pumping to the central reservoir and wter reservoir -drawings-
471	**ALIĐERCE, GOLEMI DOL I RELJAN**	**Detail design** for water supplying of settlements **Reljan, Golemi Dol and Aliđerce**, community **Preševo BOOK2**: Water distribution from central reservoir to the settlement Aliđerce, main waterpipes and objects on waterpipes
472	**ALIĐERCE, GOLEMI DOL I RELJAN**	**Detail design** for water supplying of settlements **Reljan, Golemi Dol and Aliđerce**, community **Preševo BOOK3:** Water distribution from central reservoir to the settlements Golemi Dol and Reljan, main waterpipes and objects on waterpipes
473	**ALIĐERCE, GOLEMI DOL I RELJAN**	**Detail design** for water supplying of settlements **Reljan, Golemi Dol and Aliđerce**, community **Preševo BOOK4: Resume** of detail design with total bill of quantities
474	**ŽBEVAC**	**Detail design** installation of water pipe 75 through road-bed of rail Beograd - Niš - Preševo on km 366+800 in settlement Žbevac
475	**ŽBEVAC**	**Detail design** installation of water pipe 225 through road-bed of rail Beograd - Niš - Preševo on km 367+463 in settlement Žbevac
476	**KNEŽEVAC**	**Elaborate** of site contamination quantity on potential location petrol station Kneževac
477	**GRAČANICA**	**General design** sewage water refinement plant settlement Gračanica
478	**BAČKA PALANKA**	**Defence project** of underground wter source "Ristića put" by control system - monitor, level and quality measuring underground water Backa Palanka
479	**BAČKA PALANKA**	**Detail design** of recovery and expansion existing , old dispozal in Bačka Palanka **BOOK7:** recovery existing dispozal for use period two years
479-a	**BAČKA PALANKA**	**Detail design** of recovery and expansion existing , old dispozal in Bačka Palanka **BOOK7:** recovery existing dispozal for use period two years - final solution-
480	**BAČKA PALANKA**	**General design** sewage water refinement plant settlement Bačka Palanka
480-a	**BAČKA PALANKA**	**Preliminary analysis and general design** sewage water refinement plant settlement Bačka Palanka
480-b	**BAČKA PALANKA**	**Report** of preliminary analysis and general design sewage water refinement plant settlement Bačka Palanka
480-z	**TULOVO (LESKOVAC)**	**Detailed analysis** of influence milk trade on environment in village Tulovo
481	**NIŠ**	**Elaborate** of site contamination quantity on potential location petrol station Niš
482	**BAČKA TOPOLA**	**Elaborate** of site contamination quantity on potential location petrol station Bačka Topola
483	**OMV ADA CIGANLIJA**	**Elaborate** of site contamination quantity on potential location petrol station "Savska magistrala"
484	**OMV MEDAKOVIĆ**	**Elaborate** of site contamination quantity on potential location petrol station Medaković
485	**OMV BANOVO BRDO**	**Elaborate** of site contamination quantity on potential location petrol station "Ciklon" - Banovo Brdo
486	**BAČKA PALANKA**	**Annex** of final project for water control laboratory, gauging a water-meter and service workshop for water piping in Bačka Palanka BOOK1: architecture-construction project
487	**OMV ZRENJANIN**	**Elaborate** of site contamination quantity on potential location petrol station Zrenjanin

488	**LAPOVO**	**General design and preliminary analysis** for sewage water refinement plant for Lapovo

489	**PREŠEVO**	**Detail design** for new water reservoir V=500 m^3 in Preševo and link to existing water supply
490	**PREŠEVO**	**Preliminary design** for new water reservoir V=500 m^3 in Preševo and link to existing water supply
491	**LAPOVO**	**General design** for sewerage for Lapovo
491-a	**LAPOVO**	**Brief recapitulation** with tender from technical documentation: General design for sewerage for Lapovo
492	**LAPOVO**	**Brief recapitulation** with tender from technical documentation: General design and preliminary analysis for sewage water refinement plant for Lapovo
493	**AVALSKI PUT**	**Elaborate** for possible influence gasoline station "Avalski put" to Belgrade water resource with necessary protection
494	**BAČKA PALANKA**	**BOOK1** **New construction of wells** for water supplying in Bačka Palanka Detail design for tree deep and tree shallow wells on existing underground water source "Ristića put" Bačka Palanka, total capacity for six new weels 60 l/s
494-a	**BAČKA PALANKA**	**Local action plan** for water protection, and protection for air and terrain in Bačka Palanka
495	**BAČKA PALANKA**	**BOOK2** **New construction of wells** for water supplying in Bačka Palanka Detail design for five deep wells on new underground water source "Ristića put - west"
496	**KRNJAČA**	**Elaborate** of site contamination quantity on potential location petrol station
497	**OMV DIMITROV-GRAD**	**Elaborate** of site contamination quantity on potential location petrol station
498	**OMV DELIGRAD**	**Elaborate** of site contamination quantity on potential location petrol station
499	**KOCELJEVA**	**Geneeral design** for river basin regulation Tmnava upstream from Koceljeva

REALISED 2004.

500	**OMV DOBANOVCI**	**Elaborate** of site contamination quantity on potential location petrol station Dobanovci
501	**OMV BEŠKA**	**Elaborate** of site contamination quantity on potential location petrol station Beška
502	**OMV MARTINCI -NORTH-**	**Elaborate** of site contamination quantity on potential location petrol station Martinci - north
503	**OMV MARTINCI -SOUTH-**	**Elaborate** of site contamination quantity on potential location petrol station Martinci - south
504	**VRANJE**	**Preliminary analysis** for effect of slaughter house on environment in village Ćukovac, community Vranje
505	**OMV NIŠ**	**Elaborate** of site contamination quantity on potential location petrol station Niš - N103 (Boulevard 12th february)
506	**VRANJE**	**Sewerage project** for settlement Gornji Pavlovac, Vranje
507	**VRANJE**	**Preliminary design** for slaughter house in Ćukovac, community Vranje
508	**SMEDEREVSKA PALANKA**	**Analysis** of possible effects of river Kubršnica regulation on carbon-acid mineral water sources "Palanački kiseljak"
509	**BAČKA PALANKA**	**Preliminary design** for waste separation plant on dispozal in Bačka Palanka
510	**PREŠEVO**	**Detail design** for water supplying settlement Reljan, Golemi Dol and Aliđerce, community Preševo BOOK 1: Underground water source, wells with equipment, pump station and water distribution to central reservoir and reservoir - TEXT-
510-a	**PREŠEVO**	BOOK 1: Underground water source, wells with equipment, pump station and water distribution to central reservoir and reservoir - GRAPHIC DRAWINGS-
510-b	**PREŠEVO**	**Technical control certification** Underground water source, wells with equipment, pump station and water distribution to central reservoir and reservoir
511	**PREŠEVO**	**Detail design** for water supplying settlement Reljan, Golemi Dol and Aliđerce, community Preševo BOOK 2: Water distribution from central reservoir to settlement Aliđerce, main pipes and pipe objects
512	**PREŠEVO**	**Detail design** for water supplying settlement Reljan, Golemi Dol and Aliđerce, community Preševo BOOK 3: Water distribution from central reservoir to settlements Golemi Dol and Reljan, main pipes and pipe objects
513	**PREŠEVO**	**Detail design** for water supplying settlement Reljan, Golemi Dol and Aliđerce, community Preševo BOOK 4: Resume for detail design with total bill of quantities
514	**LAJKOVAC**	**Detail design** for collecting and dispose of rain water on section of Lajkovac (around MUP and fireman station)
515	**LAZAREVAC**	**Final report** for realised expert control of technical documentation for **Detail design** for organization and regulation river Lukavica

516	**LJUBOVIJA**	**General design** of sewerage for settlement Ljubovija
516-a	**LJUBOVIJA**	**Annex** for general design of sewerage for settlement Ljubovija (settlement near bridge to Bratunac)
517	**BAČKA PALANKA**	**Detail design** for recovery and expansion existing, old disposal in Bačka Palanka BOOK 1: Analysis for location situation
518	**BAČKA PALANKA**	**Detail design** for recovery and expansion existing, old disposal in Bačka Palanka BOOK 2: Recovery of existing, old disposal
519	**BAČKA PALANKA**	**Detail design** for recovery and expansion existing, old disposal in Bačka Palanka BOOK 3: Expansion of existing, old disposal, technical-hydrotechnical part
520	**BAČKA PALANKA**	**Detail design** for recovery and expansion existing, old disposal in Bačka Palanka BOOK 4: Architectural design disposal objects
521	**BAČKA PALANKA**	**Detail design** for recovery and expansion existing, old disposal in Bačka Palanka BOOK 5: Electrical project for disposal objects
522	**BAČKA PALANKA**	**Detail design** for recovery and expansion existing, old disposal in Bačka Palanka BOOK 6: Resume of detail design for expansion existing old disposal in Bačka Palanka andtechnical control of technical documentation - supervision - Detail design for expansion old existing disposal in Bačka Palanka
523	**BAČKA PALANKA**	**Preliminary design** for waste separation plant in Bačka Palanka
524	**NIS-JUGOPETROL BEOGRAD**	**Elaborate** of possible effects on Belgrade water works source by instalation "BELGRADE"- NIS JUGOPETROL in Čukarica estuary
525	**OMV NIŠ**	**Elaborate** of terrain contamination grade on potential petrol station location Niš- Kamenicca (on highway E80)
526	**OMV BEOGRAD**	**Elaborate** of terrain contamination grade on potential petrol station location Belgrade- King Alexander's boulevard "Left"
527	**OMV BEOGRAD**	**Elaborate** of terrain contamination grade on potential petrol station location Belgrade- King Alexander's boulevard "Right"
528	**OMV BAČKA TOPOLA**	**Elaborate** of terrain contamination grade on potential petrol station location Bačka Topola 2 (on highway E75)
529	**OMV NOVI SAD**	**Elaborate** of terrain contamination grade on potential petrol station location Novi Sad - Kisačka Street
530	**OMV HORGOŠ**	**Elaborate** of terrain contamination grade on potential petrol station location Horgoš 2 (on highway E75)
531	**BAČKA PALANKA**	**Detail design** sanitary protection zone for superficial source, existing underground water source "Ristića put" and future sources "Ristića put - east" and "Ristića put - west"
532	**SARAJEVO SOKOLOVIĆI**	**Preliminary design** for wells with horizontal drains on undergruond water source "Sokolovići"
533	**BAČKA PALANKA**	**Anex detail design** for three deep and three superficial wells on existing underground water source "Ristića put", Bačka Palanka. Design pipe line Ø300 mm from well B6 shaft to well B17 channel
534	**BAČKA PALANKA**	**Adaption design** for pump station "Juta"
535	**OMV BEŠKA**	**Elaborate** of terrain contamination grade on potential petrol station location Beška 2 (on highway E75)
536	**OMV HORGOŠ 1**	**Elaborate** of terrain contamination grade on potential petrol station location Horgoš 1 (on highway E75)
537	**ŽITORAĐA**	**Detail design** for sewage pipe Ø250 mm passage through rail roadbed Doljevac - Kosanička Rača on km 10+180, station Žitorađa
538	**ŽITORAĐA**	**Detail design** for sewage pump station in Č82 and pipe line from point Č82 to point Č104 in settlement Žitorađa
539	**VRANJE ĆUKOVAC**	**Detail design** for slaughter house in Ćukovac, community Vranje **BOOK 1:** Construction part
540	**VRANJE ĆUKOVAC**	**Detail design** **BOOK 2:** Hydrotechnics part
541	**VRANJE ĆUKOVAC**	**Detail design** **BOOK 3:** Electric instalations
542	**VRANJE ĆUKOVAC**	**Detail design** **BOOK 4:** STS 10/0.4 kVA with fitting in net 10 and 1 kV
542/a	**VRANJE ĆUKOVAC**	**Total recapitulation** for bill of quantities
542/b	**VRANJE ĆUKOVAC**	**Verification** for realised detail designs technical control for slaughter house in Ćukovac
543	**-OMV-BUNAR ALEKSINAC**	**Technical solution** for connecting "TILEX" well on the existing system for water supply of the petrol station AL-01
544	**BUNAR (POSTOJECI) ALEKSINAC**	**Elaborate** of testing depletion for the existing well, 30m deep on location of petrol station AL-01
545	**DELIGRAD**	**Report** on the possibility capturing spring in village Varaši Deligrad necessaires for water supply of the petrol station AL-01
546	**ŽITORAĐA SELO**	**Tehnical solution** for water-catchment, storage reservoir and input of water to the proposed location for irrigation of

	SMRDIĆ	the village Smrdić community Žitorađa
547	**-OMV-BEOGRAD**	**Elaborate** of terrain contamination grade on potential petrol station CITYOIL in Belgrade
548	**PETNICA VALJEVO**	**Detail design** for recovery of the landslide on the dam Pocibrava in Petnica near Valjevo
549	**BEOGRAD**	**General design** for typical waste water treatment plant for a settlement capacity of 50 000 equivalent residents
550	**GORNJA TOPLICA BANJA VRUJCI**	**Tehnical control** - review of tehnical documentation

REALISED 2005.

551	**GORNJA TOPLICA BANJA VRUJCI**	**Compendium** for waste water for settlement G. Toplica - banja Vrujci with the main collector on the left and right bank of the river Toplica with defined tehnical solution
552	**BEOGRAD "METAL"**	**Elaborate** of rating garbage in the surrounding of the company "Metal" in Belgrade, 143 Vojislava Ilića street
553	**DELIGRAD**	**Design** of well AL-01, B3 on location of petrol station OMV on freeway Belgrad-Niš near Deligrad
554	**STARA PAZOVA**	**Implementation** of all obligations AD "Napredak" by the law based on the report issued water economics license Stara Pazova
555	**DELIGRAD**	**Review** solution for water supply of petrol station
556	**LJUBOVIJA**	**Suggestion** for realization "EKO-PROJECT" in community Ljubovija
557	**BUDVA**	**Project BW1 -** measuring and analiyses hidraulic parametars and diagnosis of the primary components for water supply sistem in Budva
558	**COTTAGE**	Septic tank
559	**-OMV-KRALJEVO**	**Elaborate** of terrain contamination grade on potential petrol station OMV Kraljevo (K.O. Kraljevo 3515/1, 3515/2)
560	**-OMV-VRŠAC**	**Elaborate** of terrain contamination grade on potential petrol station OMV Vršac (K.O. Vršac 57/1)
561	**-OMV-PANČEVO**	**Elaborate** of terrain contamination grade on potential petrol station OMV Pančevo (K.O. Pančevo 6825/3, 6825/4, 6825/6)
562	**BEOGRAD**	**Project** for supporting construction for the foundation excavation in 114 Južni Bulevar street
563	**BOGATIĆ**	**Conceptual design** of the pumping station "Bogatić"
564	**BOGATIĆ**	**Conceptual design** of the main collector through settlement Bogatić
565	**BOGATIĆ**	**Detail design** of the pumping station "Bogatić"
566	**BOGATIĆ**	**Detail design** of the main collector through settlement Bogatić
566-a	**BOGATIĆ**	**Bill of quantites** for the main sewage collector in Bogatić with two pumping stations
567	**BUDVA**	**Project BW1 - Conceptual design** for the new reservoir in Budva V=2500 m^3
568	**BUDVA**	**Project BW1 - Detail design** for the new reservoir in Budva V=2500 m^3 Book 1
569	**BUDVA**	**Project BW1 - Detail design** for the new reservoir in Budva V=2500 m^3 Book 2: statical design and details of reinforcement
570	**BUDVA**	**Detail design** for the new reservoir in Budva V=2500 m^3 Book 1: Soil mechanics elaborat
571	**BUDVA**	**Detail design** for the new reservoir in Budva V=2500 m^3 Book 2: Hydroconstructions part
572	**BUDVA**	**Detail design** for the new reservoir in Budva V=2500 m^3 Book 3: Construction design
573	**BUDVA**	**Detail design** for the new reservoir in Budva V=2500 m^3 Book 4: Electric installation
574	**ŽITORAĐA**	**General design** of sewerage in settlement Glašinac**,** community Žitorađa

575	**LJUBOVIJA**	**Detail hydrotechnics design** for connecting the shcool on the sewerage
576	**ŽITORAĐA**	**Conceptual design** of sewerage in settlement Glašinac**,** community Žitorađa
577	**BAČKA PALANKA**	**Conceptual design** and the study of justification of the waste water treatment plant for the town of Bačka Palanka capacity of 2 x 50 000 equivalent residents **Book 1:** Technical study of justification for waste water treatment plant
578	**BAČKA PALANKA**	**Conceptual design** and the study of justification of the waste water treatment plant for the town of Bačka Palanka capacity of 2 x 50 000 equivalent residents **Book 2:** Technical characteristic of the plant
579	**KIKINDA**	**Short summary** of the technical documentation Study of justification and conceptual design of the reservoir 2 x 5000, part of water supply sistem Kikinda
580	**KIKINDA**	**Study of justification** and conceptual design of the reservoir 2 x 5000, part of water supply sistem Kikinda
581	**BELANOVICA**	**Conceptual design** for reconstruction of the waterworks in settlement Belanovica
582	**-OMV-KRUŠEVAC**	**Elaborate** of terrain contamination grade on potential petrol station OMV Kruševac (K.O.Kruševac 1140)
583	**-OMV-VRANJE**	**Elaborate** of terrain contamination grade on potential petrol station OMV Vranje - Jedinstvo (K.O. Vranje 8955/1 i 8956/1)
584	**-OMV-DOBANOVCI**	**Elaborate** of terrain contamination grade on potential petrol station airport - highway E75 (K.O. Dobanovci 942/1 i 942/2)
585	**-OMV-NOVI SAD**	**Elaborate** of terrain contamination grade on potential petrol station OMV Novi Sad - Partizanska street (K.O. Novi Sad 3342/4, 3343/3 i 3343/5)
586	**PRIJEPOLJE**	**Report** about reviewing technical documentation: Detail design for regulation of the river Lim in Prijepolje
587	**BUDVA**	**Project BW1** location "Kamenolom" **Detail design** for the new reservoir in Budva V=2500 m^3 Book 1: Soil mechanics elaborat
588	**BUDVA**	**Project BW1** location "Kamenolom" **Detail design** for the new reservoir in Budva V=2500 m^3 Book 2: Hydroconstructions part
589	**BUDVA**	**Project BW1** location "Kamenolom" **Detail design** for the new reservoir in Budva V=2500 m^3 Book 3: Construction design
590	**BUDVA**	**Project BW1** location "Kamenolom" **Detail design** for the new reservoir in Budva V=2500 m^3 Book 4: Electric installation
591	**MOKRIN**	**Detail design** of reconstruction and construction for parts of water piping system for settlement Mokrin
592	**LJUBOVIJA**	**Expertise** on the possibility of building a plant for bottling water on the territory of community Ljubovija
593	**-OMV-NIŠ**	**Elaborate** of terrain contamination grade on potential petrol station OMV NIŠ - "Dugme-petrol" (K.O. Niš 1141/7, 1161/18, 1162/3 i 1191/10)
594	**-OMV-DOBANOVCI**	**Elaborate** of terrain contamination grade on potential petrol station OMV Dobanovci (K.O. 4003/4 i 4003/5)
595	**KIKINDA**	**Rationalization** of water consumption, how can the waterworks of Kikinda regularly supply there own residents with water in the summer period, but at the same time the residents of Kikinda can water there own gardens
595-a	**KIKINDA**	**Technical review** for the project **-** Rationalization of water consumption, how can the waterworks of Kikinda regularly supply there own residents with water in the summer period, but at the same time the residents of Kikinda can water there own gardens
596	**-OMV-NIŠ**	**Elaborate** of terrain contamination grade on potential petrol station OMV Beograd - Borska (K. O. Savski venac 2175/2)
597	**BAČKA PALANKA**	**Expertise** on the possibilities of water supplying the settlements in the community Bačka Palanka from one or more location
598	**BUDVA**	**Project BW1** **Detail design** for the new reservoir in Budva V=2500 m^3, location "Kamenolom" Book 3: Alternated construction design at the request of the investor
599	**BEOGRAD**	**Annex** of the project for securing the foundation pit and near-by facilities on location Južni bulevar 114 in Belgrade

600	**-OMV-ZAJEČAR**	**Elaborate** of terrain contamination grade on potential petrol station OMV Zaječar (K.O. Zaječar 5524/1)
601	**KIKINDA**	**Detail design** for the reservoir 2 x 5000 m^3 as a part of the water supplying system in Kikinda Book 1: Construction design
602	**BUDVA**	**Intake** and drain pipe line for connecting the reservoir on location "Podličak - Kamenolom"
603	**-OMV-RUMA**	**Elaborate** of terrain contamination grade on potential petrol station OMV RUMA (K.O. Ruma 2783)
604	**BEOGRAD TOPOLSKA**	**Detail design** for adaptation of the attic area into a residential space, Belgrade, Topolska 7
605	**KOPAONIK**	**Specification report** about rounding the terrain and facilities for the purpose of project realization "Water supplying and canalizing area - peak Kopaonik
606	**KIKINDA**	**Detail design** of the pumping station and valve house within the new facilities for sanitary and technical correct water supplying of Kikinda Book 1: Construction design
607	**KIKINDA**	**Detail design** of the pumping station and valve house within the new facilities for sanitary and technical correct water supplying of Kikinda Book 2: Hydro constructions-construction part of the pumping station and valve house
608	**KIKINDA**	**Detail design** of the pumping station and valve house within the new facilities for sanitary and technical correct water supplying of Kikinda Book 3: Electric installation
609	**KIKINDA**	**Detail design** of the pumping station and valve house within the new facilities for sanitary and technical correct water supplying of Kikinda Resume of the detail design
610	**KIKINDA**	**Detail design** of the pumping station and valve house within the new facilities for sanitary and technical correct water supplying of Kikinda Technical control of the project
611	**KIKINDA**	**Hydrological solution** of the location "Stevančeva bara" - area organization of the old lake
612	**-OMV-DOLJEVAC**	**Elaborate** of terrain contamination grade on potential petrol station OMV DOLJEVAC (on highway NIŠ-LESKOVAC)
613	**-OMV-NIŠ**	**Elaborate** of terrain contamination grade on potential petrol station OMV NIŠ - "CARA KONSTANTINA BB" (K.O. NIŠ 18899/7)
614	**-OMV-BATAJNICA**	**Elaborate** of terrain contamination grade on potential petrol station BEOGRAD - BATAJNIČKI PUT (K.O. ZEMUN 191/1, 193/4, 193/5, 193/9)
615	**-OMV-BEOGRAD**	**Elaborate** of terrain contamination grade on potential petrol station BEOGRAD - NOVOSADSKI PUT (K.O. ZEMUN 192/5, 192/6)

REALISED 2006.

617	**-OMV-INĐIJA**	**Elaborate** of terrain contamination grade on potential petrol station INĐIJA (K.O. INĐIJA 7572, 7573, 7574)
618	**-OMV-KIKINDA**	**Elaborate** of terrain contamination grade on potential petrol station KIKINDA (K.O. KIKINDA 8835, 8836, 8837, 8838, 8839, 8843, 8844)
619	**BOGATIĆ**	**Summary** of the detail design of the main sewer through Bogatić for the section from 0+000 km to 1+894.5 whose construction is foresaw in the year 2006.
620	**-OMV-UŽICE**	**Elaborate** of terrain contamination grade on potential petrol station UŽICE (K.O. UŽICE 1799/1)
621	**MIONICA**	**Detail design** for sewerage collector on the right bank of the river Toplica
622	**BEOGRAD (OVČA)**	Environment estimation impact study object NIS "Jugopetrol" Beograd, liquid oil gas storage Ovča
623	**-OMV-NOVI SAD**	**Elaborate** of terrain contamination grade on potential petrol station on the main road Zrenjanin - Novi Sad - Bačka Palanka M-7 (k.o. Novi Sad 3854/1)
624	**KIKINDA**	**Variation solution** for water treatment plant in Kikinda
625	**BEOGRAD**	**Conceptual design** for the object for laying off waste at the complex KBC ZVEZDARA
626	**-RUSAVICA-ČAČAK**	Environment estimation impact study of the exploit and processing limestone for the use as building stone in the lode

		"Rusavice" by Čačak
627	**BAČKA PALANKA**	Study analysis of water loss originate technical or administrative way - waterworks Bačka Palanka
628	**-OMV-LESKOVAC**	**Elaborate** of terrain contamination grade on potential petrol station LESKOVAC (K.O. Leskovac 9192/12, 9102/14)
629	**-OMV-KRALJEVO**	**Elaborate** of terrain contamination grade on potential petrol station KRALJEVO 2 (K.O. Kraljevo 3368)
630	**-OMV-ČAČAK**	**Elaborate** of terrain contamination grade on potential petrol station ČAČAK (K.O. Čačak 6746)
631	**BEOGRAD BVS**	**Technical control** of documentation: Project of rehabilitation collector wells RB-16, RB-20 and RB-5
632	**MELENCI**	**General design** for sewage in settlement Melenci, community Zrenjanin
633	**LJUBOVIJA MOST**	**Detail** design of sewerage for settlement Ljubovija (settlement near the bridge for Bratunac)
634	**BEOGRAD**	**Register** of pollutants Beograd
635	**BANJA VRUJCI**	**Detail design** for collecting rain water and reconstruction of the waterworks along the regional road Gornja Toplica - Banja Vrujci Part 1: reconstruction of the waterworks
636	**BANJA VRUJCI**	**Detail design** for collecting rain water and reconstruction of the waterworks along the regional road Gornja Toplica - Banja Vrujci Part 2: collector for rain water
637	**KIKINDA**	**Detail design** for the industrial building in Kikinda
638	**ŠABAC**	Envioronment estimation impact study of the exploit and processing limestone in the lode "Volujac" near Šabac - modified and supplemented
639	**BOR**	**Detail** hydroengineering of the waste water treatment plant
639-a	**BOR**	**Revision** verification
640	**-OMV-KOVIN**	**Elaborate** of terrain contamination grade on potential petrol station KOVIN on the road M-24 SMEDEREVO-KOVIN (K.O. KOVIN 949/1 i 949/4)
641	**-OMV-SMEDEREVO**	**Elaborate** of terrain contamination grade on potential petrol station SMEDEREVO (K.O. SMEDEREVO 3210/1)
642	**-OMV-GORNJI MILANOVAC**	**Elaborate** of terrain contamination grade on potential petrol station GORNJI MILANOVAC (K.O. GORNJI MILANOVAC 5/3)
643	**PREŠEVO**	**Geotehnical** characteristics of the terrain in business center "INTERSPEED" in Preševo
644	**NIŠ MRAMORSKO BRDO**	**Detail design** for the pumping pool with mud pumps and pipe line for draining refiened water
644-a	**NIŠ MRAMORSKO BRDO**	**Report** on the technical control of documentation: Niš-Mramorsko brdo
645	**-OMV-RUMA**	**Technical report** on the test hole IB-1 at the location of the petrol station OMV-Ruma
646	**-OMV-SOMBOR**	**Elaborate** of terrain contamination grade on potential petrol station SOMBOR (K.O. SOMBOR 3161**)** BEZDANSKI PUT BB

REALISED 2007.

647	**BEOGRAD ZVEZDARA**	**Conceptual design** of sewerage for the park-forest Zvezdara area
647-a	**BEOGRAD ZVEZDARA**	**Detail** research project of the terrain for the purpose of making conceptual design of sewerage for the park-forest Zvezdara area
647-b	**BEOGRAD ZVEZDARA**	**Geotechnical** documentation for the purpose of making conceptual design of sewerage for the park-forest Zvezdara area
648	**BOGATIĆ**	**Detail design** for the reconstruction of water works in the street Vojvode Stepe in Bogatić
649	**-OMV-RUMA**	**Project** of detailed hydrogeologycal research on location of the petrol station OMV Ruma
650	**-OMV-RUMA**	**Technical report** on the exploratory well B-1 at the location of the petrol station OMV-Ruma
651	**BAČKA PALANKA**	**Study analysis** of water loss in the waterworks in Bačka Palanka

652	**MIONICA**	**Detail design** of the waterworks from the reservoir Razbojište to the lower chamber Piskavica-Mionica
653	**MIONICA**	**General** design for the reservoir and pumping station Paštrić
654	**KIKINDA**	**Study analysis** of local water spring resource Šumice in Kikinda, the aspect of quality and quantiti ane defining conditions of exploatation for the nezt 20-30 years
655	**-OMV-JAGODINA**	**Elaborate** of terrain contamination grade on potential petrol station JAGODINA-OZON PETROL (K.O. JAGODINA 827/1)
656	**-OMV-NOVI SAD**	**Elaborate** of terrain contamination grade on potential petrol station MOVI SAD-ULICA PARTIZANSKA 2 (K.O. NOVI SAD 3850/10
657	**-OMV-ARANĐELOVAC**	**Elaborate** of terrain contamination grade on potential petrol station ARANĐELOVAC-ULICA KNEZA MIHAJLA (K.O. ARANĐELOVAC 24453 i 2454)
658	**-OMV-RAŽANJ**	**Elaborate** of terrain contamination grade on potential petrol station RAŽANJ (K.O. RAŽANJ 746, 747, 748, 749, 750, 751, 752, 753 i 754)
659	**MORAVA KRALJEVO**	**Report** on the technical control of documentation
660	**LESKOVAC**	**Report** on measuring and analiyses of ethanol level in reservoirs in the company area Zdravlje - Actavis in Leskovac
661	**LESKOVAC -BARIJE-**	**Report** on the technical control of documentation water system Barije
662	**KIKINDA**	**Production design** of details for providing impermeable disposal base, collecting and draing water acording to EU standards
663	**BOGATIĆ**	**Report** on the technical control of documentation**,**detail design for the water works in the street Vojvode Stepe in Bogatić
664	**KIKINDA**	**Conceptual design** for the infrastructure at the location of the industrial zone in Kikinda (part of the blocks 41 and 43) Book 1: water works
665	**KIKINDA**	**Conceptual design** for the infrastructure at the location of the industrial zone in Kikinda (part of the blocks 41 and 43) Book 2: seweraga-pipe line and pumping station
666	**KIKINDA**	**Conceptual design** for the infrastructure at the location of the industrial zone in Kikinda (part of the blocks 41 and 43) Book 3: rain sewerage
667	**KIKINDA**	**Conceptual design** for the infrastructure at the location of the industrial zone in Kikinda (part of the blocks 41 and 43) Book 4: electric installation
668	**KIKINDA**	**Conceptual design** for the infrastructure at the location of the industrial zone in Kikinda (part of the blocks 41 and 43) Book 5: natural gas pipework
669	**KIKINDA**	**Conceptual design** for the infrastructure at the location of the industrial zone in Kikinda (part of the blocks 41 and 43) Book 6: transport route Volume 1: conceptual construction design of the transport route Volume 2: conceptual design for traffic control
669-a	**KIKINDA**	**Definitive report** on the technical control of documentation, conceptual design for the infrastructure at the location of the industrial zone in Kikinda (part of the blocks 41 and 43) Books 1,2,3,4,5 and 6
670	**KIKINDA**	**Detali design** for the infrastructure at the location of the industrial zone in Kikinda (part of the blocks 41 and 43) Book 1: water works
671	**KIKINDA**	**Detali design** for the infrastructure at the location of the industrial zone in Kikinda (part of the blocks 41 and 43) Book 2: seweraga-pipe line and pumping station
672	**KIKINDA**	**Detali design** for the infrastructure at the location of the industrial zone in Kikinda (part of the blocks 41 and 43) Book 3: rain sewerage
673	**KIKINDA**	**Detali design** for the infrastructure at the location of the industrial zone in Kikinda (part of the blocks 41 and 43) Book 4: electric installation
674	**KIKINDA**	**Detali design** for the infrastructure at the location of the industrial zone in Kikinda (part of the blocks 41 and 43) Book 5: natural gas pipework
675	**KIKINDA**	**Conceptual design** for the infrastructure at the location of the industrial zone in Kikinda (part of the blocks 41 and 43) Book 6: transport route Volume 1, Volume 2

675-a	**KIKINDA**	**Detali design** for the infrastructure at the location of the industrial zone in Kikinda (part of the blocks 41 and 43) resume of the design and tecnical control
676	**ZVEZDARA**	**Conceptual design** of the rain sewerage for the part of the catchment area, park-forest Zvezdara towards the street Partizanski put
677	**ZVEZDARA**	**Conceptual design** of the sewerage for the part of the catchment area, park-forest Zvezdara towards the street Partizanski put
678	**KRUŠEVAC**	**Elaborate** of flow measuring on the sewer for waste water in the company area "Henkel-Merima" in Kruševac
679	**KRALJEVO**	**Verification of the revision** detail design of the regulation of West Morava river by Kraljevo Book 1 and Book 2
680	**-OMV-PALIĆ**	**Elaborate** of terrain contamination grade on potential petrol station PALIĆ (K.O. Palić 773/1 and 773/2)
681	**KRUŠEVAC**	**Conceptual design** of the retention basin at the factory "Henkel-Merima" in Kruševac
682	**MIONICA**	**Detail design** for the sewage and the rainfall sewage in Divčibarski put street
683	**-OMV-RAŽANJ**	**Elaborate** for geophysical exploration of the terrain at the location of petrol station OMV - Ražanj
684	**KIKINDA**	**Master plan-** airport "Kikinda" in Kikinda
685	**BEOGRAD Kalenićeva 6**	**Conceptual design** for the work performance of the condominium facade renewal in Kalenićeva 6 street in Beograd
686-a	**BEOGRAD Kalenićeva 6**	**Recapitulation:** Conceptual design for the work performance of the condominium facade renewal in Kalenićeva 6 street in Beograd - bill of quantities and drawings
687	**-OMV-RAŽANJ**	**Project** of detailed hydrogeologycal research on location of the petrol station OMV - Ražanj
688	**-OMV-VRŠAC**	**Elaborate** of terrain contamination grade on potential petrol station VRŠAC (K.O. VRŠAC 18381 and 27339/3)
689	**-OMV-POŽAREVAC**	**Elaborate** of terrain contamination grade on potential petrol station POŽAREVAC (K.O. POŽAREVAC 7749/1 and 7749/3)
690	**BAČKA PALANKA**	**Conceptual design** of the pumping station for the waste water "KALOŠ 2" in Bačka Palanka
690-a	**BAČKA PALANKA**	**Detail** hidroengineering design of the pumping station for the waste water "KALOŠ 2" in Bačka Palanka
691	**-OMV-VRAČAR**	**Elaborate** of terrain contamination grade on potential petrol station VRAČAR (K.O. VRAČAR 3377/2, 3376/2, 3379/3 and 4778/6)
692	**PREŠEVO**	**Elaborate** execution state for making the tehnical documentation, and competent supervision of well drilling for water supplying at the location KP 3606 Miratovac - motorway Niš-Skoplje near the borderline Preševo
693	**-OMV-DELIGRAD**	**Project** of detailed hydrogeologycal research on location of the petrol station OMV - DELIGRAD for the necessaries of making a observstion well P-3 and exploratory well B-3
694	**-OMV-ALEKSINAC**	**Report** on detailed hydrogeologycal research on location of the petrol station OMV - ALEKSINAC for the necessaries of making a observstion well P-3 and exploratory well B-3
695	**-OMV-KRALJEVO**	**Elaborate** of terrain contamination grade on potential petrol station KRALJEVO (K.O. KRALJEVO 304/7)
696	**BAČKA PALANKA**	**Annex detail design** book 1 construction of the new water supply works in Bačka Palanka
697	**BEOGRAD**	**Tehnical soulution** for septic tank pumping from the building in Kostolačka street, to the sewage shaft
698	**SREMSKA MITROVICA**	**Preliminary design** for the utility room at the airfield complex in Sremska Mitrovica
699	**BATAJNICA**	**Elaborate** for the necessary infrastructure - facilities for partial conversion of the airport in Batajnica
700	**MIONICA**	**Detali sewage** design in Petra Čitaka street in Mionica
701	**BATAJNICA**	**Invest program** for the necessary infrastructure facilities for partial conversion of the Batajnica airport
702	**KIKINDA**	**Detail design** for the infrastructure at the location of the industrial zone in Kikinda (part of the blocks 41 and 43) proceeding phase one of the construction
703	**BAČKA PALANKA**	**Conceptual design** for the grift chamber on the waste water treatment plant in Bačka Palanka
704	**-OMV-SMEDEREVSKA PALANKA**	**Elaborate** of terrain contamination grade on potential petrol station SMDEREVSKA PALANKA (K.O. SMEDEREVSKA PALANKA 2745 and 2746)
705	**BAČKA PALANKA**	**Detail design** for the grift chamber on the waste water treatment plant in Bačka Palanka

706	**KIKINDA**	**Preliminary analysis** 1. General hidraulic design of water treatment from the spring "Šumica" - Kikinda - nanofiltration treatment concept 2. General hidraulic design of water treatment from the spring "Šumica" - Kikinda - usage of the standard technology treatment concept
707	**KIKINDA**	**Preliminary infrastructure design** (water works and waste water sewerage) on location of the old industrial zone in Kikinda Book 1: waste water sewerage
708	**-OMV-PARAĆIN**	**Elaborate** of terrain contamination grade on potential petrol station PARAĆIN (K.O. PARAĆIN 2280/2)
709	**-OMV-KNJAŽEVAC**	**Elaborate** of terrain contamination grade on potential petrol station KNJAŽEVAC (K.O. KNJAŽEVAC 3468)
710	**KIKINDA**	**General hydraulic design** of water treatment from the spring "Šumica" in Kikinda
711	**BAČKA PALANKA**	**Preliminary project** proceeding on location of the waste water treatment plant in Bačka Palanka
712	**KIKINDA**	**Preliminary infrastructure design** (water works and waste water sewerage) on location of the old industrial zone in Kikinda Book 2: water works
713	**KIKINDA**	**Detail design** (water works and waste water sewerage) on location of the old industrial zone in Kikinda Book 1: waste water sewerage - phase 1
714	**KIKINDA**	**Detail design** (water works and waste water sewerage) on location of the old industrial zone in Kikinda Book 2: water works - phase 1
715	**-OMV-TRSTENIK**	**Elaborate** of terrain contamination grade on potential petrol station TRSTENIK (K.O. TRSTENIK 4630, 4631, i 4632)
716	**BAČKA PALANKA**	**Renewed** preliminary design of the waste water treatment plant in Bačka Palanka
717a	**PRAHOVO**	Technical documentation "**Environment estimation impact study**" object NIS Petrol, Jugopetrol, Installation "Prahovo" in Prahovo Book 1. I Analysis about danger of chemical accident
717b	**PRAHOVO**	Technical documentation "**Environment estimation impact study**" object NIS Petrol, Jugopetrol, Installation "Prahovo" in Prahovo Book 2. II Measures of prevention, readiness and responses on accident Book 3. III Resolving measures of impact consenquences
717c	**PRAHOVO**	**Protection plan** from chemical accident, object NIS Petrol, Jugopetrol, Installation "Prahovo" in Prahovo
718a	**BEOGRAD**	Technical documentation "**Environment estimation impact study**" object NIS Petrol, Jugopetrol, Installation "Belgrade" in Belgrade Book 1. I Analysis about danger of chemical accident
718b	**BEOGRAD**	Technical documentation "**Environment estimation impact study**" object NIS Petrol, Jugopetrol, Installation "Belgrade" in Belgrade Book 2. II Measures of prevention, readiness and responses on accident Book 3. III Resolving measures of impact consenquences
718c	**BEOGRAD**	**Protection plan** from chemical accident, object NIS Petrol, Jugopetrol, Installation "Belgrade" in Belgrade
719a	**NIŠ**	Technical documentation "**Environment estimation impact study**" object NIS Petrol, Jugopetrol, Installation "Niš" in Niš Book 1. I Analysis about danger of chemical accident
719b	**NIŠ**	Technical documentation "**Environment estimation impact study**" object NIS Petrol, Jugopetrol, Installation "Niš" in Niš Book 2. II Measures of prevention, readiness and responses on accident Book 3. III Resolving measures of impact consenquences
719c	**NIŠ**	**Protection plan** from chemical accident, object NIS Petrol, Jugopetrol, Installation "Niš" in Niš
720	**BOLJEVAC -OMV-**	**Elaborate** of terrain contamination grade on potential petrol station BOLJEVAC (K.O. BOLJEVAC 2853/6 i 2853/4)
721	**KIKINDA**	**Preliminary infrastructure design** on location of the old industrial zone in Kikinda Natural gas pipework
722	**BAČKA PALANKA**	**Technical solution** of objects for properly sanitary water suplly of settlement on teritory of municipal Bačka Palanka
723	**PANČEVO**	**Elaborate** of flow measuring for waste water on the location "Azotara" Pančevo 15.11.2007
724	**PANČEVO**	**Elaborate** of flow measuring for waste water on the location "Azotara" Pančevo 30.11.2007
725	**BEOGRAD**	**Conceptual design** for the work of performance of the condominium facade renewal in Danijelova 43a, Belgrade
726	**BEOGRAD**	**Project of preformed condominium**, family house, Belgrade Ljube Kovačevića num.6 (Danijelova 43a)
727	**RAŽANJ -OMV-**	**Report** of accomplishing test hole IB-1, on location of petrol station in Ražanj
728	**BAČKA PALANKA**	**Preliminary design** for the reconstruction of fecal drainage collector in the street Kralja Petra, S. Miletića and Stajkovićevoj

729	**PANČEVO**	**Elaborate** of flow measuring for waste water on the location "Azotara" Pančevo 17.12.2007
730	**LESKOVAC**	**Verification** of performed technical control of the project " Detail mechanical design of gas station for liquid oxigen"
731	**PANČEVO**	**Elaborate** of flow measuring for waste water on the location "Azotara" Pančevo 31.12.2007
732	**KIKNDA -OMV-**	**Elaborate** of terrain contamination grade on potential petrol station KIKINDA (K.O. KIKINDA 10134/1, 10134/3, 10134/4 i 10134/5)
733	**BAČKA PALANKA**	**Annex detail design** book 1 Construction of new deep wells for water supply in Bačka Palanka B-3a, B-11a and B13a instead planed and designed superficial wells Bp-3, Bp-11 and Bp-13
734a	**SMEDEREVO**	Technical documentation "**Environment estimation impact study**" object NIS Petrol, Jugopetrol, Installation "Smederevo" in Smederevo Book 1. I Analysis about danger of chemical accident
734b	**SMEDEREVO**	Technical documentation "**Environment estimation impact study**" object NIS Petrol, Jugopetrol, Installation "Smederevo" in Smederevo Book 2. II Measures of prevention, readiness and responses on accident Book 3. III Resolving measures of impact consenquences
734c	**SMEDEREVO**	**Protection plan** from chemical accident, object NIS Petrol, Jugopetrol, Installation "Smederevo" in Smederevo
735a	**SURČIN**	Technical documentation "**Environment estimation impact study**" object NIS Petrol, Jugopetrol, Installation "Aeroservis" in Surčin Book 1. I Analysis about danger of chemical accident Book 2. II Measures of prevention, readiness and responses on accident Book 3. III Resolving measures of impact consenquences
735b	**SURČIN**	**Protection plan** from chemical accident, object NIS Petrol, Jugopetrol, Installation "Aeroservis" in Surčin

REALISED 2008.

736	**PANČEVO**	**Elaborate** of flow measuring for waste water on the location "Azotara" Pančevo 15.01.2008
737	**NOVI PAZAR -OMV-**	**Elaborate** of terrain contamination grade on potential petrol station NOVI PAZAR (K.O. NOVI PAZAR 3225/2)
738	**VRBAS -OMV-**	**Elaborate** of terrain contamination grade on potential petrol station VRBAS (K.O. VRBAS 2975 i 8864)
739	**PANČEVO**	**Elaborate** of flow measuring for waste water on the location "Azotara" Pančevo 31.01.2008
740	**TRNOVA KOSA**	**Elaborate** of the fine dust contaminant spreading pattern, from the stone quarry "Trnova Kosa"
741	**ZRENJANIN -OMV-**	**Elaborate** of terrain contamination grade on potential petrol station ZRENJANIN (K.O. ZRENJANIN 5741/2 i 5742)
742	**PANČEVO**	**Elaborate** of flow measuring for waste water on the location "Azotara" Pančevo 18.02.2008
743	**KIKINDA**	**Conceptual design** of the runway for the airport "Kikinda"
744	**KIKINDA**	**Detail design** of the runway for the airport "Kikinda"
745	**KIKINDA**	**Conceptual design** of the service facilities for the airport "Kikinda"
746	**KIKINDA**	**Detail design** of the service facilities for the airport "Kikinda"
747	**KIKINDA**	**Conceptual design** of the hydrotecnics facilities for the airport "Kikinda"
748	**KIKINDA**	**Detail design** of the hydrotecnics facilities for the airport "Kikinda"
749	**RAŽANJ**	**Possibility** report for the drink water intake pipeline laying from the settlement Ražanj to the location of the petrol station OMV Ražanj
750	**PANČEVO**	**Elaborate** of flow measuring for waste water on the location "Azotara" Pančevo 29.02.2008
751	**ČAČAK -OMV-**	**Elaborate** of terrain contamination grade on potential petrol station ČAČAK 2 (K.O. ČAČAK 5810/5 i 5815)
752	**PANČEVO**	**Elaborate** of flow measuring for waste water on the location "Azotara" Pančevo 17.03.2008
753a	**BAČKA PALANKA**	**Detail design** of the sanitary zone difense for superficial and deep aquifer of existent underground water source "Ristića put" and future water source "Ristića put-east" and "Ristića put-west"
753b	**BAČKA PALANKA**	**Valid documentation** Physico-chemical analysis of underground water source "Ristića put" and future water source "Ristića put-east" and "Ristića put-west"
754	**PANČEVO**	**Elaborate** of flow measuring for waste water on the location "Azotara" Pančevo 02.04.2008
755	**PANČEVO**	**Elaborate** of flow measuring for waste water on the location "Azotara" Pančevo 15.04.2008

756	**KIKINDA**	**Conceptual design** for upgrading the runway for the airport "KIKINDA"
757	**KIKINDA**	**Detail design** for upgrading the runway for the airport "KIKINDA"
